

SFHN-BHS South of Market Mental Health Services

South of Market Mental Health Outpatient

The South of Market Mental Health Integrated Service Center is the core team at South of Market Mental Health Services that provides an array of clinic-based mental health services and, as needed, off-site services to San Francisco adult residents aged 18 and over. The majority of clients reside in the South of Market, Tenderloin and Western Addition neighborhoods. Because the clinic is located nearby several shelters, many clients are homeless at the time of enrollment.

Approximately half of the clients served have a psychotic disorder, and the majority is dually diagnosed with a major mental illness and one or more substance use disorders. Essential services offered include intake and evaluation, case management and linkage, crisis evaluation and management, medication and individual psychotherapy services, and some time-limited group offerings including Seeking Safety and Anger Management.

Hours of operation are M-F, 8:30 a.m. to 5 p.m. Walk-in hours for intake are Monday, Tuesday, Thursday and Friday from 9-10:30 a.m. and Wednesday from 1-2:30 p.m. Language resources include Spanish, Tagalog and other Filipino dialects. Gay/lesbian identified/sensitive staff is available.
