3 Phone Support: Can You Call Robinhood and Talk Live?

Robinhood phone support is available weekdays from 7 AM to 9 PM Eastern Time but there is a catch: You generally request a callback through the app rather than directly calling a support number.

Steps to get phone support:

1. Open the Robinhood app.
2. Go to the Help or Support section.
3. Choose the topic of your issue.
4. Select Contact Us, then pick the phone callback option.
5. Wait for Robinhood to call you back when an agent is available.

This callback system helps manage volume and prevents long hold times on direct lines.
